

RNDr. Petr Veselý, Ph.D.

Předseda volební komise/Chairman of the electoral commission

Elections to the Academic Senate of the Faculty of Science of the University of South Bohemia in České Budějovice for the period 2023-2026

Elections to the Academic Senate of the Faculty of Science JU will be held on **December 6-7, 2022, each day from 8:00 a.m. to 3:00 p.m. in the vestibule of building B.**

The election committee appointed by the dean of the Faculty of Science of the University of South Bohemia hereby invites members of the academic community (academic workers working at the faculty in the sense of § 70 of the Act and students duly enrolled to study at the Faculty of Science of the University of South Bohemia) to **submit proposals for candidates** to the Academic Senate of the Faculty of Science of the University of South Bohemia.

The Senate of FSci USB consists of two chambers, the chamber of academic staff has seven members and the student chamber has six members. According to Article 8 of the Electoral Rules of the Academic Senate of FSci USB, the members of each chamber are divided into three sections representing individual disciplines represented at FSci USB – biological, non-biological and technical sections.

The number of senators representing these sections is derived from the number of academic staff/students working/studying within these fields. For the Senate elections for 2023-2026, the numbers are as follows:

Academic staff (7 senators in total)

Biological Section – 5 senators

Non-Biological Section – 1 Senator

Technical section – 1 senator

Students (6 senators in total)

Biological Section - 3 senators

Non-biological section - 2 senators

Technical section – 1 senator

Students who are also employed at the FSci USB are considered students for the purposes of elections to the Academic Senate, and therefore can only propose for the student chamber. The function of a senate member is incompatible with the function of dean, vice-dean, faculty secretary or member of the election committee.

Candidates for the Academic Senate can be proposed by any member of the faculty's academic community. Candidates are proposed to the committee in written form, proposals are collected by the faculty dean's secretariat. The proposal must be named and signed by the member of the academic community proposing the candidate. Furthermore, the candidate proposed here confirms by signing that he agrees with his candidacy.

Proposals can be delivered by November 23, 2022 at 12:00 p.m.
